The Teacher Mini-Grants program is a component of ACCF's Community Grants program, from which \$5,000 is allocated annually for distribution. Additional distributions come from other donor-created funds designated for mini-grant awards. The Foundation is currently offering opportunities for individuals and businesses to participate in an initiative to create named funds, specifically earmarked for Community Grants (to include Teacher Mini-Grants). Distributions from these named funds are unrestricted so that dollars may be directed to where needs are greatest in Ashland County. ACCF offers fund creation over a five-year pledge period, as well as through wills/estate planning. Should you be interested in learning more or creating such a fund, please contact us.
